Walter:

Have you talked to the RA on this?

Dan is asking about making the Sept. 15 meeting work.

If we can't do a meeting on Sept. 15 can we entertain a later date in September as the RA suggest below??

Thanks

FYI as mentioned...we'd like to see if we can hammer this down on Sept 15, let me know what's possible with Walter, Christos, Brian and yous...

Thanks! Dan

Thanks Judith,

There are actually two meetings I'm looking to schedule, which I'm hoping we could do as a double-header, one with you and the Congresswoman one-to-one, then a larger one you and she can be at the beginning of with Walter, Christos, Brian and crew that is for the stakeholders who care about what happens with the pool, much like what we had a while back. Not everything needs to be known for this meeting, and better still that it is preliminary so that you can give an ear to and be

ready to address the community concerns regardless of the decision as to tank at site A or B.

On July 15, we had a through-going discussion at a meeting with NYC DEP/Parks Commissioners Lloyd and Silver and local stakeholders on City's recommendation for CSO tank siting in Gowanus. This EPA meeting could be an opportunity to flesh out the broader considerations. A few of us, Sabine, some NYLPI lawyers and I got a taste of some of those in a small meeting with Brian Carr last week.

We'll see how the CAG meeting goes tonight, though I'd think a lot of key people are out.

I'm available to chat now if you have a moment: (718) 222-5819

Thanks, Dan

Hi dan: I understand that my colleague beth Soltani suggested September 15 for the meeting. my sense is we should schedule this for later September as we will have more current information to share at that time, allowing us to have a more detailed discussion. Please continue to work with beth on dates and or give me a call at 212 637 5050 to discuss. thanks
